SUMMARY OF THE REASONS FOR DECISION:

The untitled photographic material also known as *Item 32 Sleeve containing a negative* has been classified as unrestricted.

The publication is a photographic negative which is contained in a transparency grid. There is also a black border around the actual negative in which there is a signature and a number. The image depicts two young girls wearing long soft dresses and sunhats. One girl is standing while the other is in a crouched position. Both are intent on a flock of doves which the crouched girl is attempting to feed. A shaft of sunlight is visible on the left side of the image. The image is identified as the work of a commercially successful photographer and clearly demonstrates artistic merit.

The publication does not raise any matters of consideration under ss3(1), 3(2), and 3(3) of the Films, Videos, and Publications Classification Act 1993. As a consequence the publication is classified as unrestricted.
